STANDARD EASEMENT
FOR THE
INSTALLATION AND MAINTENANCE OF A WATER MAIN
FOR CIRCULATION PURPOSES ONLY

We City of Highland Heights, the Grantor herein, for valuable consideration received and to be received to our full satisfaction, do hereby grant and convey to the City of Highland Heights, and to the City of Cleveland, political subdivision of the State of Ohio and Grantees herein, the perpetual right-of-way and easement for the purposes hereinafter mentioned in the following described premises (the "Premises"):

Situated in the City of Highland Heights, County of Cuyahoga , State of Ohio, known as being part of the Original Mayfield Township Lot No.3, and bounded and described as follows:

A copy of the legal Description is
attached hereto as Exhibit "A" and
made a part hereof as If fully written
herein.

Grantor and Grantee agree that all references to either part in this instrument shall include that party and the party's heirs, administrators, successors and/or assignees.

In consideration of the mutual covenants contained herein, the Grantor hereby grants and conveys unto the Grantees the right and easement to enter upon the premises to lay, install and maintain therein a water main and appurtenances, including service connections and pipes; to set all water meters and make all repairs to water mains, service meters and appurtenances which the Grantee deems to be necessary or advisable from time to time; to turn off water to any service connection or water main; or to do any other thing which the Grantees deems to be necessary or advisable in order to operate or maintain said mains, meters, connections, pipes and appurtenances in accordance with the ordinances, rules and regulation of the Grantees which are now in effect or may be adopted hereafter.

In consideration of acceptance of the easement by the Grantees, K. Hovnanian Aberdeen, LLC agrees to pay the entire cost of installing a water main and appurtenances upon the premises, which main shall be located not less than nine (9) feet from either lateral limit of the premises, The water main and appurtenances, including valves and hydrants, shall upon completion, and approval by the Grantees, become and remain the property of the Grantee City of Highland Heights, and shall be a distribution water main of said Grantee within the purview and subject to the terms of any Water Service Agreement between said Grantee and Grantee, the City of Cleveland, now or hereafter in effect.

The Grantor hereby restricts the premises against the construction thereon of any temporary or permanent structures, except that Grantor may install or cause to be installed sidewalks or pavements, or tunnels, railroad switch tracks, sewers, ducts, pipes or pole lines which cross over or under the premises at an angle of not less than forty-five (45) degrees with the center line of the water main, or which clear the water main by not less than one and one-half (1 - 1/2) feet above or one and one-half (1 - 1/2) feet below.

The Grantor agrees to keep the premises free of materials, equipment, vehicles, trees, shrubbery, and any other obstructions which would interfere with Grantees' access to or maintenance of water mains and appurtenances. Grantor further agrees to make no alterations to the premises which would increase the depth of the water main to more than six (6) feet or reduce its depth to less than five (5) feet.

If the Grantor desires to alter the premises in any way other than is expressly permitted herein, he must obtain the prior written approval of the Grantees. Upon receipt of such approval, the Grantor shall at his own expense relocate or reconstruct all or any portion of the water main and appurtenances which are affected by such alteration and, where necessary, grant a new easement of not less than thirty (30) feet in width under the same terms and conditions as herein provided. The relocated or reconstructed water main and appurtenances shall, upon completion, and approval by the Grantees, become the property of Grantee, the City of Highland Heights.

If the Grantor violates any of the provisions of this easement, the Grantees, either jointly or separately and at the expense of the Grantor, may enter upon the premises and discontinue water service or make such alterations as are necessary to bring the premises into compliance with the provisions of this easement.

Whenever maintenance or work of any kind is performed on the premises under the terms of this easement, the Grantees, jointly and separately, shall bear no responsibility for restoration of the premises or their environs to their original topographical condition.

The Grantor indemnifies and holds harmless the Grantees from any and all damage, injury or loss to any person or property caused by, related to or resulting from

any leaks in the water main or appurtenances or the maintenance, construction, reconstruction or relocation of said main or appurtenances, other than damage, injury or loss caused by, related to or resulting from the sole negligence of the Grantees. The Grantor further indemnifies and holds harmless the Grantees from any and all expense incurred and damage to the water main and appurtenances caused by, related to or resulting from the Grantor's construction or maintenance of any paving, walks, switch tracks, tunnels, sewers, ducts, pipes or pole line within or upon the premises or from any other use of the premises by the Grantor.

The Grantor hereby reserves the right to use the premises for the passage or transportation of personnel, materials or equipment, and to make such other use of the premises as is not expressly prohibited by or inconsistent with the terms of this easement.

The Grantor further agrees that since the water main to be installed on the premises is for circulation purposes only, no service connections or hydrants shall be connected to it at any time, and that divisional valves of the same size as the water main shall be installed at each longitudinal end of the premises.

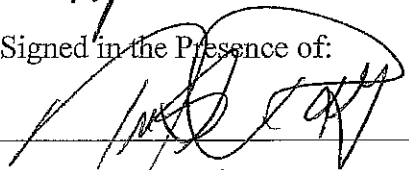

The Grantor and the Grantees mutually agree that neither the recording of this instrument nor its acceptance by the Grantees shall be construed as a dedication of the premises or an agreement by the Grantees to accept the premises for dedication for public use as a street.

The Grantor covenants with the Grantees that it is well seized of the premises as a good and indefeasible estate in fee simple and has the right to grant and convey the premises in the manner and form above written. The Grantor further covenants that he will warrant and defend the premises with the appurtenances thereunto belonging to the Grantees against all lawful claims and demands whatsoever for the purposes described herein.

TO HAVE AND TO HOLD the above granted easement, right-of-way, water lines, appurtenances and additions installed by the Grantor, for the purposes above mentioned, unto the Grantees forever.
